Defined Contribution Retirement Plan

Your Future in Focus

Put Your Future in Focus with Plan Investments that Work for You It's easier than you may think.

When it comes to planning for retirement, financial professionals often tell us that one of the most important things individuals can do is choose a mix of investments that helps meet their needs. But that's not always easy—especially if you're not comfortable making investment decisions, or if you're too busy to understand or choose your options.

A good investment strategy includes two important features: **asset allocation**—investing in different types of securities, such as equities (stocks) or fixed income (bonds)—and **diversification**—investing in multiple securities within the same asset class.

The investments in the **New Jersey Defined Contribution Retirement Plan (NJDCRP)** already provide diversification. That's because each investment combines your money with the money of other retirement investors to buy multiple securities with the stated objective of the fund. Having access to many securities within the same asset class reduces your exposure to any one company or security. So you're already diversified within each investment option in the NJDCRP.

However, you will need to decide which types of assets are right for your specific retirement goal. Many participants make that decision, at least in part, based on how comfortable they are with market volatility, and how many years they have to invest before beginning to make Plan withdrawals.

Two approaches are available to you

You can select your own investments from those offered in the NJDCRP's investment lineup, or you can elect GoalMaker®, an optional, easy-to-use asset allocation program available to you at no additional cost.

Option 1: Choose your own investments

Many who are already familiar with investing choose this approach. The NJDCRP investment options that are available to you appear in the chart on the right, in order of their potential investment risk.

Keep in mind that every investment has some degree of risk—and potential reward. If an investment offers little risk of losing money, it may also offer less chance for higher returns. And, while an investment with greater risk may offer a higher chance for returns, there is never any guarantee that such returns will be achieved.

For more information on the NJDCRP investment options available to you, visit www.prudential.com/njdcrp and log in to your account.

This is a simplified illustration of the relationship between investment risk and potential rate of return. There is no assurance that higher risk investments will provide greater returns over time. Past performance is not indicative of future performance.

Option 2: Use GoalMaker*

GoalMaker is an optional asset allocation program that is available to NJDCRP participants at no additional cost. It can simplify the investment selection process, and automatically rebalance your investments quarterly. With GoalMaker, simply answer a few questions and you're on your way toward choosing the model portfolio you feel will work best for you.

For more information on GoalMaker, visit www.prudential.com/njdcrp and refer to the "GoalMaker Asset Allocation Program" document under the "About Your Plan" tab.

Retirement income you can't outlive

If protecting your retirement savings from market declines is important to you, the NJDCRP offers the Prudential IncomeFlex Target® Balanced Fund, an investment option that can provide guaranteed income for life, regardless of market volatility in the future.** This Fund is available as part of GoalMaker or as a stand-alone investment option.

If you include IncomeFlex Target in your retirement planning portfolio, you will be invested in an asset mix that can provide guaranteed retirement income for life to help provide increased stability, potential for growth, and income protection. IncomeFlex Target does not guarantee your market value, which will fluctuate with market volatility.

For that portion of your portfolio that you choose to invest in the Fund, IncomeFlex Target guarantees that the income it will generate will be available at retirement, regardless of market performance.** Assets invested in IncomeFlex Target will be subject to a guarantee fee of 0.90%. For more information on IncomeFlex Target, visit www.prudential.com/njdcrp and log in to your account.

* Investment of your account balance according to a GoalMaker portfolio can and will be cancelled at any time if you direct Prudential to invest your account according to an investment allocation of your own design. The GoalMaker model portfolios are subject to change as directed by your plan administrator, including, for example, the replacement of investment options and the change of investment options as a percentage of the portfolio. You will be notified in writing in advance of any such changes.

**Guarantees are based on the claims-paying ability of the issuing company and are subject to certain limitations, terms, and conditions. Guarantees only apply to the portion of your portfolio allocated to IncomeFlex Target. For this and other information, please visit www.prudential.com/njdcrp or call 866-NJDCRP1 (866 653 2771) for a copy of the Prudential IncomeFlex Target Important Considerations document before investing. Please note: IncomeFlex Target includes a guarantee fee of 0.90%.

Have you checked your beneficiary designation lately?

Life has a way of changing. So from time to time, you may need to change your beneficiary designation as well. Be sure to check yours regularly—at least once a year. That is the only way you can ensure that the person you *want* to receive the money in your NJDCRP account in the event of your passing will be the one who does receive it.
