INTRODUCTORY SECTION

November 8, 2011

Honorable President and
Members of the Board of Education
Township of Ocean School District
Monmouth County
Oakhurst, New Jersey

Dear Board Members:

The comprehensive annual financial report (CAFR) of the Township of Ocean School District (District) for the fiscal year ended June 30, 2011, is hereby submitted. This CAFR includes the District's Basic Financial Statements prepared in accordance with Governmental Accounting Standards, Board Statement 34. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education (Board). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, Certificate of Excellence Award, the District's organizational chart and a list of principal officials. The financial section includes Management's Discussion and Analysis, the Basic Financial Statements and notes providing an overview of the School District's financial position and operating results, and other schedules providing detailed budgetary information, as well as the auditor's report hereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis, as the information was available to us. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996, as amended, and the U.S. Office of Management and Budget Circular Letter A-133 "Audits of States, Local Governments, and Non-Profit Organizations", and New Jersey OMB's Circular 04-04, "Single audit policy for recipients of Federal Grants, State Grants, and State Aid." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1) REPORTING ENTITY AND ITS SERVICES: Township of Ocean School District is an independent reporting entity within the criteria adopted by the GASB as established by Statement No. 14. All funds of the District are included in this report. The Township of Ocean Board of Education and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels Pre-K through 12. These include regular, vocational as well as special education for handicapped youngsters. The District completed the 2010-2011 fiscal year with an enrollment of 4,010 students, which is 96 students less than the previous year's enrollment. The following details the changes in the student enrollment of the District over the last five years.

**Note: Below enrollments do not include 'out of district' tuition students.*

ACTUAL STUDENT ENROLLMENT

Fiscal Year	Student Enrollment	Percent Change
2010-2011	4,010	<2.34>%
2009-2010	4,106	<1.53>%
2008-2009	4,170	<1.49>%
2007-2008	4,233	<2.44>%
2006-2007	4,339	

PROJECTED STUDENT ENROLLMENT

Fiscal Year	Student Enrollment	Percent Change
2011-2012	3,937	<1.82>%
2012-2013	3,880	<1.45>%
2013-2014	3,841	<1.01>%
2014-2015	3,775	<1.72>%
2015-2016	3,707	<1.80>%

2) ECONOMIC CONDITION AND OUTLOOK: Housing in Ocean Township has been affected by the economy and the conversion of former year round residences to summer living and winter rentals. The real estate market continues to be depressed as there are many more homes for sale in Ocean Township than ever before. Though the average price of homes has come down there are fewer homes being sold. Additionally there are an ever increasing number of homes that are used for summer living only resulting in a student enrollment decrease.

3) MAJOR INITIATIVES: The Township of Ocean Schools continues to meet the educational needs of all students. Our technology initiatives have progressed incrementally with our teacher laptop distribution now completed, K-12. Smartboards, Elmos, and data projectors continue to be added to classrooms, computer labs, and school libraries. The high school science wing will have all computers replaced in 2011-2012. Also the district is moving toward a high school scheduling redesign toward a 21st century school model.

4) FACILITIES: The Township of Ocean School District operates out of 6 buildings as follows:

Building	Address	Year Built	Approximate Square Footage
Ocean Twp. High School	550 West Avenue	1964	200,215
Twp. of Ocean Intermediate School	1200 West Park Ave	1974	257,400
Wayside Elementary School	733 Bowne Road	1969	147,375
Ocean Twp. Elementary School	555 Dow Avenue	1957	76,160
Wanamassa Elementary School	901 Bendermere Ave	1930	59,580
Administration Office Bldg.	163 Monmouth Road	1900	46,850

All buildings, though aging, have been well maintained. The last major referendum was in 2007 for 6.1 million dollars. This energy referendum addressed many of the mechanical systems in each school building.

5) INTERNAL ACCOUNTING CONTROLS: Management of the Township of Ocean School District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control

structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

6) BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section. An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriation of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balances at June 30, 2011.

7) ACCOUNTING SYSTEM AND REPORTS: The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to Financial Statements", Note 1.

8) CASH MANAGEMENT: The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial statements", Note 2. The District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

9) RISK MANAGEMENT: The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

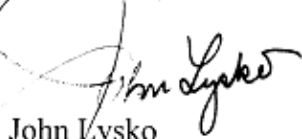

10) OTHER INFORMATION: Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The Board

selected the accounting firm of Paduano, DiTomaso, and Golda, LLC. In addition to meeting the requirements of the Single Audit Act of 1996, as amended, and the related OMB Circular A-133 and New Jersey OMB's Circular 04-04. The auditor's report on the general-purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report. The district received the Association of School Business Officials International (ASBO) Certificate of Excellence in financial reporting award. This award was for the district Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2010

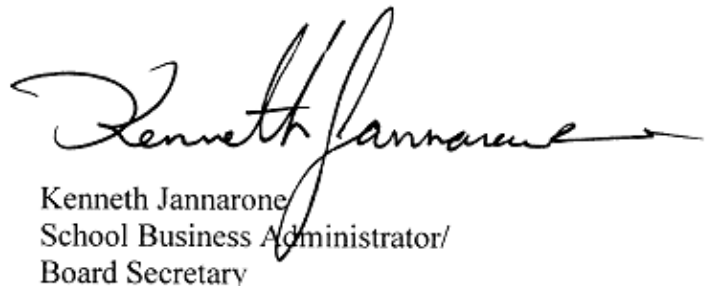

11) ACKNOWLEDGEMENTS:

We would like to express our appreciation to the members of the Township of Ocean School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Independent Auditor's Report

The Honorable President and
Members of the Board of Education
Township of Ocean School District
County of Monmouth
Oakhurst, New Jersey 07755

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Township of Ocean School District, in the County of Monmouth, State of New Jersey, as of and for the fiscal year ended June 30, 2011, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Township of Ocean Board of Education's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

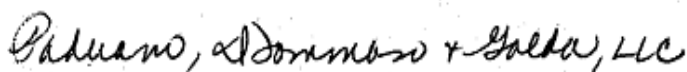

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Township of Ocean Board of Education, in the County of Monmouth, State of New Jersey, as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 13, 2011 on our consideration of the Township of Ocean Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and Budgetary Comparison Schedule as detailed on the table of contents are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township of Ocean Board of Education's basic financial statements. The accompanying introductory section, and other supplementary information, such as the combining and individual fund financial statements, long-term debt schedules, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and long-term debt schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

The accompanying schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and New Jersey OMB's Circular 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, respectively, and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011
UNAUDITED**

The management's discussion and analysis of the Township of Ocean School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2011. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic annual financial statements and notes to enhance their understanding of the School District's financial performance. Certain comparative information between the current fiscal year (2010-2011) and the prior fiscal year (2009-2010) is presented in the Management's Discussion and Analysis.

Financial Highlights

Key financial highlights for 2011 are as follows:

- ◆ In total, net assets increased \$2,428,415, which represents a 13 percent increase from 2010.
- ◆ General revenues accounted for \$65,033,987 in revenue or 88 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions accounted for \$8,966,009 or 12 percent of total revenues of \$73,999,996.
- ◆ Total assets of governmental activities decreased by \$51,516 as cash and cash equivalents increased by \$1,518,981, receivables decreased by \$223,762 and net capital assets decreased by \$1,346,735. The decrease in net capital assets represents depreciation expense and the result of no material additions as there were no major capital projects completed in the fiscal year.
- ◆ The School District had \$71,571,581 in expenses; only \$8,966,009 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily property taxes) of \$65,033,987 were adequate to provide for these programs.
- ◆ Among major funds, the General Fund had \$66,416,204 in revenues and \$64,343,107 in expenditures. The General Fund's balance increased \$2,021,082 from 2010.
- ◆ Fund Balance for the General Fund as of the fiscal year end was \$5,530,986. The undesignated portion of surplus was \$3,145,313. Based on our calculation of excess surplus, the maximum of undesignated fund balance (2%) is \$1,301,365. The excess \$1,843,948 must be utilized for tax relief in the succeeding year's budget.
- ◆ The revenues for operating grants and contributions were recorded as an offset to expenses in this current year rather than as a general revenue on Schedule A-2.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Township of Ocean School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Assets* and *Statement of Activities* provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column. In the case of the Township of Ocean School District, the General Fund is by far the most significant fund.

Reporting the School District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2011?" The Statement of Net Assets and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector businesses. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Assets and the Statement of Activities, the School District reports two types of activities:

- ◆ Governmental activities - All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.
- ◆ Business-type activities - This service is provided on a charge for goods or services basis to recover the expense of the goods or services provided. The Food Service fund is reported as a business activity.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page 24. Fund financial reports provide detailed information about the School District's funds. The School District uses many funds to account for a multitude of financial transactions. The School District's governmental funds are the General Fund, Special Revenue Fund, Capital Projects Fund and Debt Service Fund.

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds

Proprietary funds include enterprise funds and fiduciary funds. The enterprise fund uses the same basis of accounting as business-type activities. Our School District uses the enterprise fund to report the Board's cafeteria operations. Fiduciary funds are used to account for assets held by the School District on behalf of others and include the Student Activities Fund, Payroll and Agency Funds, and the Unemployment Trust Fund.

Long Term Debt

A separate section is used to account for all Long Term Debt including detail of serial bonds payable and Obligations under Capital Leases.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the District-wide and fund financial statements. The notes to the financial statements can be found on pages 32 to 51 of this report.

The School District as a Whole

Recall that the Statement of Net Assets provides the perspective of the School District as a whole. Net assets may serve over time as a useful indicator of a government's financial position.

The School District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

Governmental Activities

The unique nature of property taxes in New Jersey creates the legal requirements to annually seek voter approval for the School District operations. Property taxes made up 78 percent of revenues for governmental activities for the Township of Ocean School District for fiscal year 2011 and 77 percent for fiscal year 2010. Property tax revenues increased by \$2,363,492, which is a 4 percent increase over the prior year. The increase was needed to fund the additional expenditures associated with higher operating costs and a decrease in state aid. Federal and state grants accounted for another 11 percent of revenues.

Total expenses for the fiscal year were \$71,571,581.

EXPENSES FOR THE FISCAL YEAR 2011

Program expenses include instruction that comprises 56 percent of total expenses. Support services comprise 40 percent of total expenses.

Business-type Activities are included above. Revenues for the Food Service Fund totaled \$1,112,775 which were comprised of charges for services in the amount of \$689,179 and federal and state reimbursements in the amount of \$423,596. Total operating expenses totaled \$1,192,783.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

- ◆ Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student, including extracurricular activities.
- ◆ Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development.
- ◆ General administration, school administration and business include expenses associated with administrative and financial supervision of the district.
- ◆ Operations and maintenance of facilities activities involve keeping the school grounds, buildings and equipment in an effective working condition.
- ◆ Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by state law.
- ◆ Interest and fiscal charges involve the transactions associated with the payment of interest and other related charges to debt of the School District.
- ◆ Other includes special schools.

The dependence upon tax revenues is apparent. Over 99 percent of instruction activities are supported through taxes and other general revenues; for all activities general revenue support is 99.9 percent. The community, as a whole, is the primary support for the Township of Ocean School District.

The School District's Funds

Information about the School District's governmental funds starts on page 24. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$72,748,405 and expenditures of \$70,800,002. The net change in fund balance for the year was most significant in the General Fund, a decrease of \$2,021,082. As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

As the graph and table below illustrates, the largest portion of General fund expenditures is for salaries. The district is a service entity and as such is labor intensive.

General Fund Budgeting Highlights

The School District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During the course of the fiscal 2011 year, the School District amended its General Fund budget as needed. The School District uses program based budgeting and the budgeting systems are designed to tightly control total program budgets but provide flexibility for program management. Revisions in the budget were made to recognize revenues and expenditures that were not anticipated and to prevent over expenditures in specific expense accounts. Significant revisions are noted below.

- ◆ Salaries overall were reduced as many positions were eliminated due to the decrease in state aid.
- ◆ Capital outlay was increased during the year due to various projects that were needed that were not originally budgeted.
- ◆ Transfers to other funds was increased due to a significant loss in the food service fund that was not anticipated.
- ◆ Various Instructional Aide salary lines were adjusted due to employee movement.

Capital Assets

At the end of the fiscal year 2011, the School District had \$39,175,230 invested in land, buildings, furniture and equipment, and vehicles. Table 5 shows fiscal 2011 balances compared to 2010.

**Table 5

Machinery and equipment	2,644,667	2,919,213
	<u>\$ 39,175,230</u>	<u>\$ 40,521,965</u>

Capital assets decreased \$1,346,735 from fiscal year 2010 to fiscal year 2011. The decrease in capital assets is due to depreciation expense. For more detailed information, please refer to the Notes to Financial Statements.

Debt Administration

At June 30, 2011, the School District had \$22,625,752 as outstanding debt. Of this amount \$2,315,752 is for compensated absences, and the balance of \$20,310,000 is for bonds for school construction.

At June 30, 2011, the School District's overall legal debt margin was over \$180 million. For more detailed information, please refer to the Notes to Financial Statements.

For the Future

The Township of Ocean School District is in very good financial condition presently. There are no major concerns other than budgeting limits with S1701 and the increased reliance on local property taxes. However, future finances are not without challenges as the community continues to grow and state funding is decreased.

The Township of Ocean School District's budget for 2011-2012 was passed by the voters. The contributing factors are thought to be the small tax rate increase and the addition of state aid that was taken away in the previous year.

The Township of Ocean is primarily a residential community, with very few ratables; thus the burden is focused on homeowners to foot the tax burden.

The labor agreement for teachers, administrators, and several other employee groups has been negotiated through June 30, 2011. Each year of this contract will have an impact on the District's future operating budgets.

The School District routinely monitors the rules and regulations of the No Child Left Behind federal legislation to assess and ensure financial compliance.

The School District had approved and completed two capital improvement projects in 2009 for two schools. The School District has completed all other capital improvement projects in the prior year. It is one of the School District's goals and a budget priority to continue to upgrade and maintain the school facilities.

In conclusion, the Township of Ocean School District has committed itself to financial excellence for many years. In addition, the School District's system for financial planning, budgeting, and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenge of the future.

TOWNSHIP OF OCEAN BOARD OF EDUCATION
Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Year Ended June 30, 2011

Total net change in fund balances - governmental funds (from B-2) **\$ 1,896,386**

Amounts reported for governmental activities in the statement of activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.

Depreciation expense	\$ (1,691,270)	
Capital outlays	344,535	(1,346,735)

Repayment of long-term debt, i.e. bond principal, is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not reported in the statement of activities.

11,091,729

Bond premium and issuance costs are amortized over the lives of the bonds in the statement of activities but are recorded as an addition from the proceeds from sales of bonds in the government funds.

(573,592)

Proceeds from debt issues are a financing source in the governmental funds. They are not revenue in the statement of activities; issuing debt increases long-term liabilities in the statement of net assets.

(8,585,000)

In the statement of activities, interest on long-term debt in the statement of activities is accrued, regardless of when due. In the governmental funds, interest is reported when due. The change in accrued interest is an addition in the reconciliation.

59,680

In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation; when the paid amount exceeds the earned amount the difference is an addition in the reconciliation.

**NOTES TO THE
BASIC FINANCIAL STATEMENTS**

TOWNSHIP OF OCEAN BOARD OF EDUCATION
Notes to the Basic Financial Statements
June 30, 2011

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education (Board) of the Township of Ocean School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School district also applies Financial Accounting Standards Board (FASB) Statements and interpretations issued on or before November 30, 1989, to its governmental activities provided they do not conflict with or contradict GASB pronouncements. The District's Proprietary Funds have elected not to apply the standards issued by FASB after November 30, 1989. The more significant of the Board's accounting policies are described below.

A. Reporting Entity

The Board is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District. The operations of the District include the elementary schools, intermediate school and high school located in Ocean Township, New Jersey.

The financial reporting entity consists of a) the primary government, b) organizations for which the primary government is financially accountable, and c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

The District, as the primary government for financial reporting entity purposes, has oversight responsibility and control over all activities related to the Township of Ocean Board of Education in Ocean Township, New Jersey. The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding entities.

The District has no component units that are required to be included within the reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards.

B. District-Wide and Fund Financial Statements

The District-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, service, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

TOWNSHIP OF OCEAN BOARD OF EDUCATION
Notes to the Basic Financial Statements
June 30, 2011

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. District-Wide and Fund Financial Statements (continued)

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the District-wide financial statements. Major individual governmental funds and the major individual enterprise fund are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The District-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and capital leases, are recorded only when payment is due.

Property taxes, interest and state equalization monies associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year.

The District has reported the following major government funds:

General Fund: The general fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Fund: The District maintains one special revenue fund, primarily consisting of government grants, for which the proceeds of specific revenue sources (other than fiduciary funds or major capital projects) are legally restricted to expenditures for specified purposes.

Capital Projects Fund: The capital projects fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds.)

Debt Service Fund: The debt service fund accounts for the resources accumulated and payment made for principal and interest on long-term general obligation debt of governmental funds.

The District reports the following major proprietary fund:

Enterprise (Food Service) Fund: The enterprise fund accounts for all revenues and expenses pertaining to cafeteria operations. This fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing goods and services to the students or other entities on a continuing basis are financed or recovered primarily through user charges.

Internal Service Fund: The internal service fund may be used to report any activity that provides goods or services to other funds, departments or agencies of the primary entity on a cost-reimbursement basis. The school district accounts for risk management and health insurance costs provided to the Board of Education employees through the internal service fund.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Additionally, the District reports the following fiduciary fund types:

Trust and Agency Funds: The trust and agency funds are used to account for assets held by the District on behalf of outside parties, including other governments, or on behalf of other funds within the District.

Trust Funds: The unemployment compensation and private purpose scholarship funds are accounted for in essentially the same manner as governmental funds. The unemployment compensation fund is used to account for contribution from employees and interest earned on the balance as well as payments to the State for reimbursement of unemployment claims. The private purpose scholarship fund is an expendable trust whereby principal and interest may be spent.

Agency Funds (Payroll and Student Activity Fund): Agency funds are used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations.

As a general rule, the effect of interfund activity has been eliminated from the District-wide financial statements.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

The proprietary fund distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues for the enterprise fund includes the cost of sales, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

The District reports unearned revenue on its balance sheet. Unearned revenue arises when a potential revenue does not meet both the "measureable" and "available" criteria for recognition in the current period. Unearned revenue also arises when resources are received by the District before it has legal claim to them, as when federal assistance is received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

Ad Valorem (Property) Taxes are susceptible to accrual as, under New Jersey State Statute, a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payments schedule and the unpaid amount is considered to be an "accounts receivable."

The following statutory dates are applicable to property taxes collected by the respective municipalities:

Levy date	January 1
Lien Date	January 1
Due Dates:	August 1, November 1, February 1, and May 1

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office for approval and are voted upon at the annual school election on the third Tuesday in April. Budgets, except for the special revenue fund, are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of details as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23. The over-expenditure in the general fund is due to the inclusion of the non-budgeted on-behalf payments made by the State of New Jersey as District expenditures. These amounts are offset by related revenues and as such do not represent budgetary over-expenditures. All budget amendments/transfers must be approved by School Board resolution. Budgetary transfers were made during the current year and were within allowable limits permitted by the State. The District did not deem them to be significant or unusual in nature. Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary-basis of accounting and GAAP with the exception of the legally mandated revenue recognition of the one or more June state aid payments for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

E. Cash, Cash Equivalents and Investments

Cash and cash equivalents consist of petty cash, amounts on deposit, money market accounts and short-term investments with original maturities of three months or less from date of acquisition.

Investments are stated at fair value in accordance with Governmental Accounting Standards Board (GASB) Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools."

F. Interfund Receivable/Payable

Interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

G. Inventories

Inventories that benefit future periods, other than those recorded in the enterprise fund, are recorded as expenditures during the year of purchase.

Inventories in the enterprise fund are expensed using the consumption method. Enterprise fund inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. At June 30, 2011, the unused Food Donation Program commodities of \$3,672 are reported as deferred revenue in the enterprise fund.

TOWNSHIP OF OCEAN BOARD OF EDUCATION
Notes to the Basic Financial Statements
June 30, 2011

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

H. Capital Assets

Capital assets, which include land, property, plant and machinery and equipment and construction in progress, are reported in the applicable governmental or business-type activities columns in the District-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$2,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or through estimation procedures performed by an independent appraisal company. Donated capital assets are valued at their estimated fair market value on the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant and equipment of the District is depreciated using the straight-line method under the half-year convention. The following estimated useful lives are used to compute depreciation:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
School building	50
Building improvements	20
Electrical/Plumbing	30
Vehicles	8
Office and computer equipment	5 – 10
Instructional equipment	10
Grounds equipment	15

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Fixed assets are not capitalized and related depreciation is not reported in the fund financial statements.

I. Compensated Absences

The District accounts for compensated absences (e.g. unused vacation, sick leave) as directed by Governmental Accounting Standards Board No. 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences attributable to service already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the right to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policies. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreement with the various employee unions.

For the District-wide *Statement of Net Assets*, the current portion is the amount estimated to be used in the following year. In accordance with GAAP, for the governmental funds, in the Fund Financial Statements, all of the compensated absences are considered long-term and, therefore, are not a fund liability and represents a reconciling item between the fund level and District-wide presentations.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2011, no material liability existed for compensated absences in the food service fund.

TOWNSHIP OF OCEAN BOARD OF EDUCATION
Notes to the Basic Financial Statements
June 30, 2011

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

J. Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

K. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the District-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due.

L. Unamortized Bond Premiums, Discounts and Bond Issuance Costs

Premiums, discounts and bond issuance costs on the revenue bonds are amortized using the interest method, over the maturity of the related issue.

M. Fund Balance Reporting

The District has adopted GASB 54 as part of its 2010-11 fiscal year reporting. The intention of the GASB is to provide a more structured classification of fund balance and to improve the usefulness of fund balance reporting to the users of the District's financial statements. The reporting standard establishes a hierarchy for fund balance classifications and the constraints imposed on the users of those resources.

GASB 54 provides for two major types of fund balances, which are nonspendable and spendable. Non-spendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items and principal (corpus) of an endowment fund. The District does not have any prepaid item or nonspendable funds related to endowments.

In addition to the nonspendable fund balance, GASB 54 has provided a hierarchy of spendable fund balances, based on a hierarchy of spending constraints.

- Restricted: fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.
- Committed: fund balances that contain self-imposed constraints for the government from its highest level of decision making authority.
- Assigned: fund balances that contain self-imposed constraints of the government to be used for a particular purpose.
- Unassigned: fund balance of the general fund that is not constrained for any particular purpose.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

M. Fund Balance Reporting (continued)

The Board of Education has classified its fund balances with the following hierarchy:

Spendable: The Board of Education has classified the spendable fund balances as *Restricted*, *Committed*, *Assigned and Unassigned* and considered each to have been spent when expenditures are incurred.

- Restricted for Excess Surplus and Capital Reserve:

New Jersey School Districts are required to reserve fund balance of the general fund if they did not appropriate a required minimum amount as budgeted fund balance. The capital reserve account is used to accumulate funds for use as capital outlay expenditures in subsequent fiscal years. The funds have been included in restricted category of fund balance. The restricted fund balances totaled \$3,843,522 and represented \$2,268,217 in excess surplus and \$1,575,305 in capital reserve.

- Assigned for School Operations and Capital Projects:

The School Board has set aside certain spendable fund balance for school operations and capital projects. At year end, the assigned fund balance is \$1,439,579 of which \$1,382,806 is for school operations and \$56,770 is for debt service. The assigned fund balance for school operations includes \$282,806 for outstanding encumbrances and \$1,100,000 for appropriation of existing unassigned fund balance at year-end to be utilized toward tax relief in the next year's budget.

- Unassigned:

The unassigned fund balance for the General Fund is \$304,658.

N. Calculation of Excess Surplus

In accordance with N.J.S.A. 18A:7F-7, as amended, the designation for reserve fund balance – excess surplus is a required calculation pursuant to the New Jersey Comprehensive Education Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve fund balance of the general fund at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in the subsequent years' budget. The District has excess fund balance generated during the 2011 fiscal year in the amount of \$1,843,948 which will be designated for tax relief in 2012-2013.

O. Net Assets

Net assets represent the difference between assets and liabilities in the District-wide financial statements. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The School District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

P. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Q. On-Behalf Payments

Revenues and expenditures of the general fund include payments made by the State of New Jersey social security contributions and post-retirement medical and pension benefits for certified members of the New Jersey Teachers Pension and Annuity Fund. The amounts are not required to be included in the District's annual budget.

R. Allocation of expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable by function. Employee benefits, including the employer's share of social security, workers' compensation and medical and dental benefits, were allocated based on salaries of the program.

NOTE 2. RECONCILIATION OF DISTRICT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets.

The governmental fund balance sheet includes reconciliation between fund balance – total governmental funds and net asset – governmental activities as reported in the District-wide statement of net assets. One element of that reconciliation explains that long-term liabilities, including bonds payable, capital leases and compensated absences, are not due and payable in the current period and therefore are not reported in the funds. The details of this \$22,927,721 difference are as follows:

Bonds payable	\$ 20,310,000
Accrued interest payable	301,969
Compensated absences	<u>2,315,752</u>
Net adjustment to reduce fund balance - total governmental funds to arrive at net assets - governmental activities	<u><u>\$ 22,927,721</u></u>

NOTE 3. DEPOSITS AND INVESTMENTS

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey Statue 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et. Seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks that deposits of which are federally insured. GUDPA requires that all public depositories must pledge collateral, having a market value of at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

NOTE 3. DEPOSITS AND INVESTMENTS (continued)

Deposits

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey which are insured by the Federal Deposit Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund (NJCMF), New Jersey Arbitrage Rebate Management Fund (NJARM) and M.B.I.A. Class.

New Jersey statutes (GUDPA) require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirements, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Operating cash, in the form of Negotiable Order of Withdrawal ("NOW") accounts, is held in the District's name by a commercial banking institution. At June 30, 2011, the carrying amount of the District's deposits was \$4,045,564 and the bank balance was \$5,248,436. The District also held \$1,400 in petty cash at June 30, 2011.

Based on levels of risk, \$250,000 of the District's cash deposits on June 30, 2011 were secured by federal depository insurance. The remaining bank balance of \$3,795,564 was covered by the New Jersey Governmental Unit Deposit Protection Act (GUDPA).

Pursuant to GASB Statement No. 40, "Deposit and Investment Risk Disclosures" ("GASB 40"), the District's NOW accounts are profiled in order to determine exposure, if any, to Custodial Credit Risk (risk that, in the event of failure of the counterparty, the District would not be able to recover the value of its deposits or investment). Deposits are considered to be exposed to Custodial Credit Risk if they are: uncollateralized (securities not pledged to the depositor), collateralized with securities held by the pledging financial institution, or collateralized with securities held by the financial institution's trust department or agent but not in the government's name.

At June 30, 2011, all of the District's deposits were collateralized by securities held in its name and, accordingly, not exposed to custodial credit risk. The District does not have a policy for the management of custodial credit risk, other than depositing all its funds in banks covered by GUDPA. At least five percent of the District's deposits were fully collateralized by funds held by financial institutions, but not in the name of the District. Due to the nature of GUDPA, further information is not available regarding the full amount that is collateralized.

Investments

New Jersey statutes permit the District to purchase the following types of securities:

- a. Bonds or other obligations of the United States or obligations guaranteed by the United States.
- b. Bond of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal National Mortgage Agency or of any United States Bank for Cooperatives which have a maturity date not greater than twelve months from the date of purchase.

NOTE 3. DEPOSITS AND INVESTMENTS (continued)

Investments (continued)

- c. Bonds or other obligations of the School District.
- d. New Jersey Cash Management Fund, New Jersey Arbitrage Rebate Management Fund and M.B.I.A. Class.

The Board of Education participates in the New Jersey Asset and Rebate Management Program which is a joint investment trust for local government units in the State of New Jersey. It was formed to make available comprehensive investment management, accounting and rebate calculation services for the issuers of tax exempt bonds and complies with all New Jersey statutes and regulations for the allowable investment of public funds. The Board participates in the joint investment account which provides a convenient method for local governments to pool funds for temporary investing. These investments consist of United States Treasury Bills and notes and other obligations guaranteed by the United States of America, Federal agency bonds and notes with a maturity not greater than 397 days, and fully collateralized repurchase agreements. The carrying amount and fair value as of June 30, 2011 was \$1,665,769.

Custodial Credit Risk: Pursuant to GASB 40, the NJARM, a pooled investment, is exempt from custodial credit risk disclosure. The District does not have a policy for custodial credit risk.

Credit Risk: The District does not have an investment policy regarding the management of credit risk. GASB 40 requires that disclosure be made as to the credit rating of all debt security investments except for obligations of the U.S. government or investments guaranteed by the U.S. government. THE NJARM is rated AAAM by Standard and Poor's.

Interest Rate Risk: The District does not have policy to limit interest rate risk. The weighted average maturity of the NJARM portfolio at December 31, 2010, was 50 days.

NOTE 4. RECEIVABLES

Receivables at June 30, 2011, consisted of accounts (rent and tuition), accrued interest, interfund, intergovernmental, and property taxes. All receivables are considered collectible in full. A summary of the principal items of intergovernmental receivables are as follows:

	<u>Governmental Fund</u>	<u>Government Wide</u>
State Aid	\$ 106,909	\$ 108,799
Federal Aid	544,906	598,615

Bonds Authorized But Not Issued

As of June 30, 2011, the District had no authorized but not issued bonds.

Defeasance

The Board adopted a refunding bond ordinance and a resolution on September 21, 2010, for the purpose of issuing Refunding Bonds in order to advance refund a portion of the outstanding 2002 Bond issuance dated March 29, 2002 which were used to finance the construction of additions to and renovations of the existing schools.

Approval was obtained from the New Jersey Local Finance Board of the Department of Community Affairs on September 17, 2010.

On November 4, 2010 the Board issued \$8,585,000 of refunding school bonds with net interest cost of 2.50% to advance refund \$8,542,000 of outstanding series 2002 bonds with an average interest cost of 4.61%. The net proceeds of \$9,199,528 (after payment of costs of issuance of \$47,700) plus an additional \$692,118 of bond premium and accrued interest were used to purchase US Government securities. These securities were deposited in an irrevocable trust with an escrow agent to provide for future debt service payments on the 2002 series bonds. As a result the 2002 bonds are considered to be defeased and the liability for these bonds has been removed from the net assets.

This refunding resulted in an economic gain as well as savings from refunding. The economic gain realized from this refunding was \$29,890 and the savings resulting from the refunding is detailed below:

Cash flow requirements to service old debt	\$ 13,162,539
Cash flow requirements for new debt	<u>12,486,784</u>
Net savings from refunding	<u>\$ 675,755</u>

Compensated absences and capital lease liabilities are liquidated by expenditures charged to the general fund. Serial bonds payable are liquidated by expenditures charged to the debt service fund.

NOTE 8. PENSION PLANS

Plan Descriptions

Substantially all of the Board's employees participate in one of the following contributory defined benefit public employee retirement systems which have been established by the State statute: the Public Employees' Retirement System (PERS) or the Teachers' Pension and Annuity Fund (TPAF). These systems are sponsored and administered by the State of New Jersey. The Teachers' Pension and Annuity Fund Retirement System is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other related non-contributing employers. The Public Employees' Retirement System is considered a cost-sharing multiple-employer plan.

Teachers' Pension and Annuity Fund (TPAF)

The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66, to provide coverage including post-retirement health care to substantially all full-time public employees of the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for health care coverage. Members are eligible for retirement at age 55 with an annual benefit generally determined to be 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of creditable service. Early retirement is available for those under age 55 participating in TPAF with 25 or more years of credited service. Anyone who retires early and is under age 55 receives retirement benefits as calculated in the above mentioned formula but at a reduced rate (one quarter of one percent for each month the member lacks of attaining age 55).

NOTE 8. PENSION PLANS (continued)

Public Employees' Retirement System (PERS)

The Public Employees' Retirement System was established as of January 1, 1955, under the provisions of N.J.S.A. 43:15A, to provide coverage including post-retirement health care to substantially all full-time employees of the State or any county, municipality, school district, or public agency, provided the employee is not a member of another State-administered retirement system. Membership is mandatory for such employees and vesting occurs after 8 to 10 years of service and 25 years for health care coverage. Members are eligible for retirement at age 55 with an annual benefit generally determined to be 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of creditable service. Early retirement is available to those under age 55 with 25 or more years of credited service. Anyone who retires early and is under age 55 receives retirement benefits as calculated in the above formula, but at a reduced rate (one quarter of one percent for each month the member lacks of attaining age 55)

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information for TPAF and PERS. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0295.

Funding Policy

The contribution policy is set by New Jersey State statutes and contributions are required by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of five percent of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the Board is a non-contributing employer of the TPAF.

Funding Policy (continued)

The Board's actuarially determined contributions to PERS for the years ended June 30, 2011, 2010 and 2009 were \$841,059, \$601,450 and \$539,268, respectively, equal to the required contributions for each year. During the year ended June 30, 2011, the State of New Jersey contributed \$2,070,038 to the TPAF for post-retirement medical benefits and normal costs of pension on behalf of the Board. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the Board \$2,216,989 during the fiscal year ended June 30, 2011 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. This amount has been included in the District-wide financial statements and the fund-based statements as revenues and expenditures in accordance with GASB Statement No. 24.

NOTE 9. POST-RETIREMENT BENEFITS

Chapter 384 of Public Laws of 1987 and Chapter 6 of Public Laws 1990 required Teachers' Pensions and Annuity Fund (TPAF) and Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. Chapter 103 of Public Laws 2007 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2010, there were 87,288 retirees, statewide, eligible for post-retirement medical benefits. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical premiums changed from a pre-funding basis to a pay-as-you-go basis beginning in fiscal year 1994.

NOTE 9. POST-RETIREMENT BENEFITS (continued)

The State is also responsible for the cost attributable to P.L. 1992 c. 126, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$126.3 million toward Chapter 126 benefits for 14,050 eligible retired members in fiscal year 2010.

In June 2004, the Governmental Accounting Standards Board (GASB) issued Statement No. 45, *Financial Reporting by Employers for Postemployment Benefits Other Than Pension*. This statement established standards of accounting and financial reporting for other postemployment benefits (OPEB) expense/expenditures and related OPEB liabilities or OPEB assets, note disclosures and required supplementary information (RSI) in the financial reports of state and local government employers. Since the State of New Jersey pays OPEB benefits on behalf of the District and the State is recording the OPEB liability on its financial statements, this GASB does not apply to the District.

NOTE 10. RISK MANAGEMENT AND HEALTH INSURANCE

The District is exposed to various risks of loss related to torts; theft, damage, or destruction of assets; errors and omissions; employee health and accident claims; and natural disasters.

Property and Liability Insurance

The District maintains commercial insurance coverage for property, liability, student accident and surety bonds and does not retain risk of loss. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report. There have been no significant reductions in insurance coverage from the prior year and no settlements that have exceeded insurance coverage for the last three years.

New Jersey Unemployment Compensation Insurance

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method." Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The table below is a summary of the district contributions, employee contributions, reimbursements to the state for benefits paid and the ending balance of the district's trust fund for the current and previous two years:

<u>Fiscal Year</u>	<u>Interest</u>	<u>Employee Contributions</u>	<u>Amount Reimbursed</u>	<u>Ending Balance</u>
2010 - 2011	\$ 598	\$ 99,232	\$ (347,134)	\$ 376,115
2009 - 2010	1,608	114,204	(147,744)	623,419
2008 - 2009	9,977	105,783	(75,509)	655,351

Health Insurance

Beginning in the fiscal year 2009, the District began to self-insure for employee prescription plans. Costs associated with these risks are reported in the internal service fund.

NOTE 11. DEFERRED COMPENSATION

The Board offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 403(b). The plan, which is administered by various insurance companies, permits participants to defer a portion of their salary until future years. Amounts deferred under the plan are not available to employees until termination, retirement, death or unforeseeable emergency.

The Board offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan permits participants to defer a portion of their salary until future years. All amounts of compensation deferred are held for the exclusive benefit of plan participants and beneficiaries. Amounts deferred under the plan are distributable upon separation from service, death or unforeseeable emergency.

Participants' rights under the plan are equal to the fair market value of the deferred account for each participant. The District has no liability for losses under the plan.

The plan administrators are AXA- Equitable, ING- USA, Metropolitan Life, Ameriprise, and VALIC (Variable Annuity Life Insurance Co.).

NOTE 12. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

As of June 30, 2011, the interfund receivables and payables that resulted from regularly recurring operational transfers are detailed below:

Due to the Proprietary fund from the General Fund to cover deficit	\$ 100,000
Due to the General Fund from the Special Revenue Fund to cover cash overdraft	<u>336,968</u>
	<u>\$ 436,968</u>

TOWNSHIP OF OCEAN BOARD OF EDUCATION
Notes to the Basic Financial Statements
June 30, 2011

NOTE 12. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS (continued)

The interfund between the capital projects fund and debt service fund represent interest earned on investments in the capital projects fund that must be transferred to the general fund. The interfund between the general fund and the capital projects and special revenue funds represents loans between the funds. All interfunds are expected to be paid within one year.

Interfund transfers during the year were as follows:

	<u>Transfers from Other Funds</u>	<u>Transfers to Other Funds</u>
General Fund	\$ 29,892	\$ 100,000
Capital Projects	-	2
Debt Service	-	29,890
Proprietary Fund	<u>100,000</u>	<u>-</u>
	<u><u>\$ 129,892</u></u>	<u><u>\$ 129,892</u></u>

The general fund transferred \$100,000 to cover a deficit in the operations of the food service fund. The debt service fund transferred excess proceeds of \$29,890 from the bond refunding to the general fund. New Jersey statute requires that interest earned on the investments in the capital projects fund be credited to the general or debt service fund.

NOTE 13. ECONOMIC DEPENDENCY

The School District is dependent on the State of New Jersey for a substantial portion of its operating funds. Due to additional funding uncertainties at the State level, funding for school districts was reduced. The ultimate effect of possible reductions in funding on the District's future operations is not yet determinable.

NOTE 14. CONTINGENT LIABILITIES

Litigation

The Board is involved in a few claims incidental to its operations. In the opinion of the administration and legal counsel, the ultimate resolution of these matters will not have a material adverse effect on the financial position of the District.

As a result of the School Funding Reform Act's (SFRA) impact on property taxes on the Village of Loch Arbour, the Village brought suit in connection with the funding formula. Specifically, the SFRA repealed a portion of the previous funding formula which exempted the Village from the previous funding formula and established a unique tax formula for Village residents to pay to the School District. Prior to the enactment of the SFRA, the Village paid the Township approximately \$330,000 per year for education costs. Under the current funding formula, the Village must now pay the Township approximately \$1.9 million in education costs. The Village has currently made all applicable payments to the Township. In January 2010, the Superior Court ruled against the Village and the matter was appealed. On July 13, 2011, the Appellate Division determined that the arguments of the Village of Loch Arbour were without merit and issued an opinion affirming the decision of the Superior Court.

Grant Programs

The School District participates in federal and state grant assistance programs. These programs are subject to program compliance audits by the grantors or their representatives. The School District is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

NOTE 15. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the District by inclusion of \$400,000 during 2000-2001 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by Board resolution at year end of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to *N.J.S.A 19:60-2*. Pursuant to *N.J.A.C. 6A:26-9.1(d)1*, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2010 to June 30, 2011 fiscal year is as follows:

Beginning balance, July 1, 2010	\$ 724,559
Interest earnings	746
Deposits (per Board resolution June 28, 2011)	850,000
Withdrawals	
Board resolution (per approved budget)	<u>-</u>
Ending balance, June 30, 2011	<u><u>\$ 1,575,305</u></u>

The June 30, 2011 LRFP balance of local support costs of uncompleted capital projects is \$4,236,976.

NOTE 16. DEFICIT FUND BALANCES

As reflected on Exhibit A-1, Statement of Net Assets, a deficit in unrestricted net assets of \$3,049,861 existed as of June 30, 2011 for governmental activities. The primary cause of this deficit is the District not recognizing the receivable for the last state aid payment and the recording of the long-term liability for compensated absences. In accordance with full accrual accounting, which is the basis of accounting for Exhibit A-1, Statement of Net Assets, such liabilities are required to be recorded in the period in which they are incurred. However, in accordance with the rules and regulations that govern the District in the formulation of their annual budget (see Note 1), compensated absences that relate to future services, or that are contingent on a specific event outside the control of the District and its employees, are funded in the period in which such services are rendered or in which such events take place. Therefore, this deficit in unrestricted net assets for governmental activities does not indicate that the District is facing financial difficulties.

NOTE 17. FUND BALANCE APPROPRIATED

General Fund (Exhibit B-1)

Of the \$5,530,986 General Fund balance in the fund financial statements at June 30, 2011, \$282,806 is reserved for encumbrances, \$1,843,948 is reserved as excess surplus in accordance with N.J.S.A. 18A:7F-7, \$424,269 of the total reserve for excess surplus has been appropriated and included as anticipated revenue for the year ending June 30, 2011; \$1,575,305 has been reserved in the Capital Reserve Account, \$1,100,000 has been appropriated and included as anticipated revenue for the year ending June 30, 2011; and \$304,658 is unreserved and undesignated.

TOWNSHIP OF OCEAN BOARD OF EDUCATION

June 30, 2011

NOTE 17. FUND BALANCE APPROPRIATED (continued)

Debt Service Fund

Of the Debt Service Fund fund balance at June 30, 2011, \$56,768 is reserved in accordance with *N.J.S.A. 7F-41c(2)* and \$2 is unreserved and undesignated

NOTE 18. RELATED ORGANIZATIONS

Not included in the School Board's financial statements are certain Parent-Teacher Associations (PTAs), Parent-Teacher-Student Associations (PTSAs) and athletic and band booster clubs. These agencies provide services to students and employees of the School Board, but are separate legal entities having sufficient autonomy in the management of the own affairs to distinguish them as separate from the administrative organization of the School Board. The School Board does not account for these entities as component units or joint ventures; it does not maintain an ongoing financial interest or have responsibility for these entities.

NOTE 19. ENVIRONMENTAL MATTERS

The Whitman Companies, Inc. (Whitman) initiated site investigations at the Ocean Township High School Bus Compound in May 2000. Whitman was retained due to the presence of petroleum-contaminated soils identified during the removal of two (2) 5,000-gallon underground storage tanks (USTs) performed by another consultant in August 1999. The USTs contained gasoline and diesel fuel. The UST removals and subsequent site investigation were reported to the New Jersey Department of Environmental Protection-Bureau of Underground Storage Tanks (NJDEP-BUST) on October 20, 2000.

As a result of chlorinated compounds detected in several private wells located near the Bus Compound, the Board of Education retained Whitman to perform further site investigations at the Bus Compound and perform Preliminary Assessments (PAs) for both the High School and Bus Compound properties to determine if any potential areas of environmental concern (AECs) exist.

Based on the results of further ground water and soil investigations and findings of the Preliminary Assessment Reports, Whitman identified other potential AECs at the High School and adjacent Bus Compound that required further remedial investigations and remedial actions.

A Site Investigation Report, Soil Remedial Action Report, Ground Water Investigation Report and Remedial Investigation Report for ground water and soil at the Bus Compound property were also submitted to NJDEP.

Whitman submitted the PA Report associated with the High School including a completed Memorandum of Agreement (MOA) to NJDEP. The High School remedial investigations and actions were being performed under a MOA, which is part of the NJDEP's Voluntary Cleanup Program. The MOA is the regulatory mechanism for obtaining NJDEP oversight and approvals in instances where environmental investigations and/or remedial actions are not governed by a specific regulatory program. The High School remedial investigations and actions were completed and since have received a No Further Action (NFA) on February 27, 2006.

On June 8, 2011 the NEDEP issued a conditional letter of no further action for the remediation of the Bus Compound investigation. The Board must monitor for compliance with institutional controls and submit biennial certifications that the systems have been properly maintained as well as decommission all monitoring wells. The first certification is due June 8, 2013. The NJDEP determined that the pollution in the ground water at this site was contaminated by a source unrelated to the Board of Education.

Based on the NJDEP no further action letter, the Board has determined that any provision for liability is no longer necessary.

NOTE 20. SUBSEQUENT EVENT

Management has reviewed and evaluated all events and transactions that occurred from June 30, 2011 through October 13, 2011, the date that the financial statements were issued, for possible disclosure and recognition in the financial statements. The following item occurred subsequent to June 30, 2011.

The Board has been notified that it will receive additional state aid of \$652,905, of which \$152,905 will be budgeted for technology improvements during 2011-2012 and \$500,000 will be utilized for tax relief. The Board was also notified that it has been allocated \$326,399 under the Educational Job Fund which will be utilized to restore programs that had been eliminated in the original budget for 2011-2012.

The contract with the Township of Ocean Education Association expired on June 30, 2011. The Board is presently in negotiation with the Education Association through mediation.

PROPRIETARY FUNDS DETAIL STATEMENTS

Proprietary Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the district's board is that the costs of providing goods or services be financed through user charges.

Food Service Fund – This fund provides for the operation of food service in all schools within the school district.

Internal Service Fund – This fund provides for risk-financing activities such as self insurance.

THIS SECTION HAS ALREADY BEEN INCLUDED IN STATEMENTS B-4, B-5, B-6, B-7 and B-8

FIDUCIARY FUNDS DETAIL STATEMENTS

Fiduciary Funds are used to account for funds received by the School District for a specific purpose.

Agency Funds are used to account for assets held by the School District as an agent for individuals, private organizations and other governments and/or other funds.

Student Activity Fund – This agency fund is used to account for student funds held at the schools.

Payroll Fund – This agency fund is used to account for the payroll transactions of the School District.

Note: NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy . The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

a The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the net valuation taxable.

b Rates for debt service are based on each year's requirements.

Debt outstanding data provided by each governmental unit.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

- a** For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable President and
Members of the Board of Education
Township of Ocean School District
County of Monmouth
Oakhurst, New Jersey 07755

We have audited the financial statements of the Board of Education of the Township of Ocean School District, in the County of Monmouth, State of New Jersey, as of and for the year ended June 30, 2011, and have issued our report thereon dated October 13, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Township of Ocean Board of Education's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township of Ocean Board of Education's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Township of Ocean Board of Education's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis.

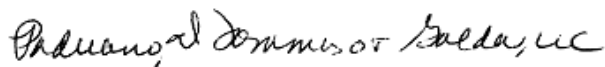

A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Township of Ocean Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

This report is intended solely for the information and use of the audit committee, management, the Township of Ocean Board of Education, the New Jersey State Department of Education, and other federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 AND NEW JERSEY OMB CIRCULAR 04-04

The Honorable President and
Members of the Board of Education
Township of Ocean School District
County of Monmouth
Oakhurst, New Jersey 07755

Compliance

We have audited the compliance of the Board of Education of the Township of Ocean School District, in the County of Monmouth, State of New Jersey, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that are applicable to each of its major federal and state programs for the fiscal year ended June 30, 2011. The Township of Ocean Board of Education's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal and state programs is the responsibility of the Township of Ocean Board of Education's management. Our responsibility is to express an opinion on the Township of Ocean Board of Education's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and New Jersey OMB's Circular Letter 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards, OMB Circular A-133 and New Jersey OMB's Circular 04-04, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Township of Ocean Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Township of Ocean Board of Education's compliance with those requirements.

In our opinion, the Board of Education of the Township of Ocean School District, in the County of Monmouth, State of New Jersey, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal and state programs for the fiscal year ended June 30, 2011.

Internal Control Over Compliance

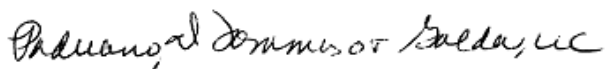

The management of the Board of Education of the Township of Ocean School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal and state programs. In planning and performing our audit, we considered the Township of Ocean Board of Education's internal control over compliance with the requirements that could have a direct and material effect on a major federal or state program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and New Jersey OMB Circular 04-04, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Entity's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis.

A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that a material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the audit committee, management, the Township of Ocean Board of Education, the New Jersey State Department of Education, and other state and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

TOWNSHIP OF OCEAN BOARD OF EDUCATION
Notes to Schedules of Expenditures of
Federal Awards and State Financial Assistance
June 30, 2011

NOTE 1. GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Township of Ocean Board of Education. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

NOTE 2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal awards and state financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to *N.J.S.A. 18A:22-44.2*. For GAAP purposes, that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the last state aid payment in the current budget year, consistent with *N.J.S.A. 18A:22-44.2*.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$266,317 for the general fund and (\$106,294) for the special revenue fund. See C-3 (Notes to the Required Supplementary Information) for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as presented below:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund	\$ 68,731	\$ 11,491,337	\$ 11,560,068
Special Revenue Fund	2,429,671	598,207	3,027,878

TOWNSHIP OF OCEAN BOARD OF EDUCATION
Notes to Schedules of Expenditures of
Federal Awards and State Financial Assistance
June 30, 2011

NOTE 4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

NOTE 5. OTHER

Revenues and expenditures reported under the food distribution program represent current year value received and current year distributions, respectively. The amount reported as TPAF pension contributions represent the amount paid by the State on behalf of the District for the year ended June 30, 2011. TPAF social security contributions represent the amount reimbursed by the state for the employer's share of social security contributions for TPAF members for the year ended June 30, 2011.

The post retirement pension and medical benefits received on-behalf of the District for the year ended June 30, 2011 amounted to \$2,070,038.

NOTE 6. ADJUSTMENTS

The adjustment column on Schedules A and B arises from favorable differences incurred in the liquidation of encumbrances which were charged as budgetary basis expenditures in the prior fiscal year.
